Stephanie and Gene, regarding your questions on Lot 2 and the associated letter you have drafted, I have not been retained to perform any work on Lot 2. At this time, and as we agreed in 2009, Ed Lapidus' focus has to be the completion of work, and closure of Lot 1. Ed has made it clear in the past, and has reiterated more recently that there are simply no funds available for Lot 2. If you have additional questions or want to discuss Lot 2 further, I would contact Ed directly.

In terms of Lot 1, attached are a Figure and Table listing the wells that are proposed to be sampled as we start the post-remediation groundwater monitoring required under the CT RSRs. This monitoring is scheduled to begin this month.

As required, I will submit the results of the monitoring to you annually. If you have any questions regarding Lot 1, please do not hesitate to contact me directly.

Regards,

Jim
